

Bob Potwara ASTM International Committee D Carbon Test Methods

Christopher Brunning Humidity Effects of Volatile Organic
Compounds Carbon Adsorption

Partha Basue Arsenic Control Technologies

William Graf Restoring South Florida Ecosystem - Orlando to Keys

Jim Ritter Pressure Swing Adsorption: A Ubiquitous Gas Separation
Technology.

Accepted Poster Presentations

- New Activated Carbon Manufacturing Process. Mike Jones.
- New Reactivation of Spent Granular Activated Carbons. Mike Jones.
- Making Activated Carbons from Sawdust. Henry Nowicki.
- Recovering Product after Decolorization Applications. Wayne Schuliger.
- Eliminating Mercury from Dental Offices. Bill Purves.
- Advanced GAED Test Method Applications. H. Nowicki.
- 1,000 Tons per Year High Quality Char Available for Disposition. Henry Nowicki
- Tires Char Available for Sale. Henry Nowicki.

- Removal of methylene blue, crystal violet, phenol and cadmium (II) using nitric acid modified steam-activated carbon developed from date pits. Sheikha S. Ashour.
- Solving Refractory Problems with GAED Full Characterization. Henry Nowicki.
- Preparing Yourself for Expert Witness Work. Henry Nowicki.
- Decisions Lawyers make in Hiring Experts. David Oberdick.
- Custom Activated Carbon Pulverizer Lab Scale Machine. George Nowicki
- Activated Carbon Software Programs. Henry Nowicki and Christopher Brunning.
- Global Electronic Marketing and Sales. Christopher Brunning.
- Small Scale Carbon Activation Furnace Comparison of CO₂ and H₂O Activations.
- Doing Business with South Florida Water District

Accepted Abstract Only

- New Binder for Particle Enlargement. H. Nowicki
- New Applications for Tire Char. H. Nowicki
